2017 - 2021 Bachelor Of Technology In mechanical Engineering APJ Abdul Kalam Technological University 6.9 - CGPA	2022 to 2023 Python internship L&T Edu Tech 2024-2025 Python internship ,Luminar Technolab
--	--

EXPERIENCE

Python Django REST API Developer Intern (April 2025 – December 2025)

Nthintex Solutions

- Developed and maintained REST API applications for live production environments
- Built comprehensive management system with FCM push notifications and automated cron jobs,celery
- Implemented WebSocket connections for real-time communication features
- Collaborated with cross-functional teams to deliver scalable backend solutions
- Built an automated image background removal system integrated into the backend API, handling real-time photo processing for end users

Python Full Stack Developer Intern (2024 - 2025)

Luminar Technolab, Kochi

- Completed intensive 7-month full-stack development program
- Gained expertise in web application development using Python and Django
- Developed proficiency in database management with MySQL and SQLite3
- Built end-to-end web applications with user authentication and payment integration

LANGUAGES

- English
- Malayalam
- Hindi
- Tamil

KEY PROJECTS

Management System REST API

- Developed comprehensive management system using Django REST Framework
- Integrated FCM push notifications for real-time user engagement
- Implemented automated cron jobs for scheduled tasks and data processing

E-Commerce REST API Backend

- Created robust e-commerce platform backend using Django REST Framework
- Implemented secure payment integration and order processing system
- Developed comprehensive product catalog management with admin functionalities
- Built user authentication system with shopping cart functionality

Room Booking Application

- Built full-stack room booking platform using Django and Python
- Features: booking confirmations, room catalogs, user authentication, payment gateway
- Designed responsive user interface with HTML, CSS, Bootstrap, and JavaScript
- GitHub: <https://github.com/Nikilpn>

Dress E-Commerce Platform

- Developed complete e-commerce solution for fashion retail business
- Admin panel with product management, inventory control, and order tracking
- Secure payment processing and user account management system

Resume Builder

- Developed a full-stack Resume Builder application using React.js and JSON Server for efficient resume creation and management
- Built responsive and interactive user interfaces using Material UI and Bootstrap
- Implemented CRUD operations for creating, editing, updating, and deleting resume details dynamically
- Added features including professional summary, education, experience, skills management, and PDF resume download
- Deployed the frontend on Vercel and backend on Render for live accessibility and scalability

Additional REST API Projects

- **Dairy Management System:** Backend API for dairy operations management
- **Blog Platform API:** RESTful backend for content management system
- **FCM Integration Project:** Push notification service implementation

TECHNICAL SKILLS

- Frontend Technologies: HTML5, CSS3, Bootstrap, React.js
- Backend Technologies: Python, Django, FastAPI, Flask
- Databases: MySQL, SQLite3, PostgreSQL
- API Development: RESTful API Development, WebSocket Integration
- Additional Technologies: FCM Push Notifications, Cron Jobs, Payment Gateway Integration
- Development Tools: PyCharm, VS Code
- Version Control: Git, GitHub (github.com/Nikilpn)
- Soft Skills: Problem Solving, Team Collaboration, Adaptability, Communication Skills
