PROFILE

Python Full Stack Developer with 1+ years of hands-on experience building web applications and RESTful APIs. Skilled in Django, DRF, FastAPI, and React.js. Experienced with WebSockets, FCM push notifications, payment integration, automated background processing, machine learning, and web scraping.

EXPERIENCE

Python Django REST API Developer Intern

Apr 2025 – Dec 2025

Nthintex Solutions

- Developed and maintained REST API applications for live production environments
- Built management system with FCM push notifications, cron jobs & Celery
- Implemented WebSocket connections for real-time communication features
- Built automated image background removal system integrated into backend API

Python Full Stack Developer Intern

2024 – 2025

Luminar Technolab, Kochi

- Completed intensive 7-month full-stack development program
- Built end-to-end web applications with authentication and payment integration
- Developed proficiency in MySQL, SQLite3, Python and Django

KEY PROJECTS

Friends Cart — E-Commerce Web App

Full-stack e-commerce platform built with React.js (Redux Toolkit, React Router) and Django REST Framework. Features product catalog with search & pagination, cart, wishlist, Razorpay payment integration, and client reviews. Backend on Render, PostgreSQL on Neon.

E-Commerce REST API Backend

Robust e-commerce platform with DRF — secure payment integration, product catalog, cart, and admin panel.

Management System REST API

Comprehensive system using Django REST Framework with FCM notifications and automated cron jobs.

Room Booking Application

Full-stack booking platform with Django — booking confirmations, payment gateway, responsive UI.

Resume Builder

React.js + JSON Server app with Material UI, CRUD operations, and PDF download. Deployed on Vercel & Render.
